1. INTRODUCTION

BiblioClick is a web platform designed to encourage the creation and management of virtual communities dedicated to reading. The site allows users to authenticate, create and administer book clubs, participate in thematic discussions, and access personalized spaces. The project was developed as part of the Web Technologies course at the University of Naples "Parthenope", with the aim of putting into practice the fundamental principles of the design and development of web applications based on client-side technologies.

2. KEY FEATURES

- **Authentication Module:** complete system for user registration and access, with secure credential management.
- **Literary Club Management:** tools for creating, configuring, and administering reading groups.
- **Discussion Area:** pages dedicated to the exchange of opinions between club members, with the possibility of moderating content.
- **User Dashboard:** a reserved section where each user can view their profile and manage the clubs they have created.

3. USER GUIDE

MAIN HOMEPAGE

BiblioClick central homepage which provides main features such as:

- **Presentation:** Display slogans and invitations to explore and discuss books in clubs.
- **Tab navigation:** Allows you to navigate between different sections via tab ("Home", "Club", "About Us").
- **Advanced Club Search :** In the "Clubs" section there is an advanced search form that allows you to filter the bookclubs by theme, number of members, language, frequency of discussions and other criteria.
- **Club View:** The search results are shown as cards in the middle section.
- **User Management:** Through the profile menu at the top right, the user can login, logout and access personal functions.
- **Create Clubs:** Authenticated users can create new clubs via the "Create" button.

LOGIN/REGISTRATION

It is dedicated to user authentication on the BiblioClick platform. It allows to:

- **Login:** Allows already registered users to log in by entering their username and password.
- **Password Recovery:** Offers a link to recover your forgotten password.
- **Registration:** Allows new users to create an account by entering their first name, last name, username, email, and password.
- **Switch between login and registration:** The user can easily switch between the login and registration screens.

USER PROFILE

User profile section of the BiblioClick platform.

- **Profile management:** The user can view and modify their personal data (name, surname, email).
- **Security management:** Allows you to change your password through a dedicated section.
- **My Dashboard:** Shows the clubs the user is a member of and a calendar with club activities or events.
- **Tab navigation:** The user can switch between the dashboard and the personal data/security section.
- **Logout:** Button to log out of the account.

CLUB CREATION

It is used to allow users to create a new reading club on the BiblioClick platform. Through a form, the user can enter:

- Club Name
- Main language
- Frequency of discussions
- Club Theme
- Maximum number of participants

Once the form is filled out and submitted, the new club is registered and made available to other users. The page is designed to facilitate the creation and customization of reading clubs.

DISCUSSIONS

Dedicated to discussions within a reading club on BiblioClick. It allows to:

- **View club information:** Shows details and title of the active discussion.
- **Manage comments:** Users can write new comments via a form and view the main conversation and responses, organized hierarchically.
- **User interaction:** Each comment displays the username to encourage interaction between club members.
- **Profile Navigation:** Includes a profile menu to access personal features.
- **Discussion management:** There is a button to display the time remaining until the discussion is closed.

CLUB

Dedicated to the detailed visualization of a single reading club on BiblioClick. It allows to:

- **Show club information:** Name, description, language, number of members, and discussion history.
- **Access Management:** Allows users to request access to the club with the push of a button.
- **View next thread:** Shows the date, time, and description of the next scheduled thread.
- **Discussion Calendar:** Displays a calendar with the dates of past and future discussions.
- **History & History:** Provides access to the club's discussion history.
- **Navigation:** Includes tabs to switch between Home, Club, and About Us, as well as the user profile menu.

Welcome to the BiblioClick community!

Enjoy reading and happy discussions! 📖🗨️
